

Optimising patient care across the evolving SMA landscape

Sunday 13 September 2020 | 13:00–14:00

Improvement in standards of care (SoC) and the development of disease-modifying therapies in recent years have contributed to an evolution of the spinal muscular atrophy (SMA) landscape. Clinical outcomes for people living with SMA have improved in recent years, resulting in changes from the disease trajectories that we would expect from natural history studies.

Please join us for this virtual symposium where we will be discussing the challenges associated with the implementation of SoC and how to optimise the management of affected individuals considering the emerging phenotypes in SMA.

Faculty

Nathalie Goemans (Chair)
Neuromuscular Reference
Centre for Children, University
Hospitals, Leuven, Belgium

Mariacristina Scoto
Great Ormond Street Hospital
for Children, London, UK

Tina Duong
Stanford University,
Palo Alto, California, USA

Laurent Servais
MDUK Oxford Neuromuscular
Centre, Oxford, UK

Agenda

Time	Session title	Speaker
13:00–13:05	Welcome and introduction	<i>Dr Nathalie Goemans (Belgium, Chair)</i>
13:05–13:40	Standards of care in SMA: real but not ideal Getting prepared: emerging phenotypes in SMA Looking ahead: evidence-based treatment decisions in SMA	<i>Dr Nathalie Goemans (Belgium, Chair)</i> <i>Tina Duong (USA)</i> <i>Dr Mariacristina Scoto (UK)</i> <i>Professor Laurent Servais (UK)</i>
13:40–14:00	Live panel discussion with Q&A	<i>Faculty members</i>
14:00	Summary and symposium close	<i>Dr Nathalie Goemans (Belgium, Chair)</i>

**We will be presenting our symposium in an exciting format, which we hope will bring the discussions to life.
We look forward to welcoming you to our virtual symposium!**

This presentation was approved by the Scientific Program Committee as an independent activity held in conjunction with ICNMDigital. This presentation is not sponsored or endorsed by ICNMDigital.

This symposium is intended for Healthcare Professionals only. This symposium is not intended for physicians practising in the US.
