Agenda

- 07:00** ● **Welcome and Introduction**
Pushpa Narayanaswami, MD, FAAN
- 07:05** ● **Pathogenic Contributions in gMG: Why More Than One Therapeutic Approach is Needed**
Heinz Wiendl, MD
- 07:20** ● **Emerging Targeted Therapies for Uncontrolled gMG: A Tale of Two Targets**
James F. Howard Jr., MD
- 07:40** ● **With the Patient at the Forefront, How Could Standard of Care in gMG Evolve in the Future?**
Entire Panel
- 07:50** ○ **"Ask the Faculty" and Take-Home Messages**
Entire Panel

LEARNING OBJECTIVES

- Summarise the pathogenic contributors in gMG and their role in disease progression
- Translate the clinical data for emerging therapies for uncontrolled gMG in the context of current clinical practice
- Appraise how emerging therapies could evolve the standard of care for patients with uncontrolled gMG

This presentation was approved by the Scientific Program Committee as an independent activity held in conjunction with the 17th International Congress on Neuromuscular Diseases. This presentation is not sponsored or endorsed by ICNMD 2022.

This activity is supported by an educational grant from UCB Biopharma SRL.

This independent medical education activity is organised by PeerVoice. PeerVoice activities are designed to fill the unmet needs of the medical community by reporting information pertaining to clinically relevant advances and developments in the science and practice of medicine. The preparation of PeerVoice activities is supported by written agreements that clearly stipulate and enforce the editorial independence of PeerVoice and the faculty presenters.
